log Part of Thanksgiving Sight Abo Fown with a Bullet in Mis Nock. Tom Brodle, Steve's brother, is in the Chambers Street Hospital with a bullet in his Tom is 24 years of age and claims to be a printer. He was one of the flibusters wh sailed away last winter to subdue Guatemala and landed on Turks Island. When he returned he posed as a "travelled" man, and got slong after a fashion, until he abused his mother so that she could stand it no longer, and he was sent to Blackwell's Island by Justice Duffy. He was there when Steve dropped from the bridge, and the fame of this feat reached him. It made him restless, and on that very night he and a companion sluded the guard and started to swim to this city. they were about half way across when they were seen and fired at. They reached Oak Point after being in the water nearly five hours. Steve Brodie employed Tom as a valet when he was exhibiting himself in a dime museum. When steve started off on a starring tour Tom was thrown on his own resources, On Thanksgiving morning Tom started out to spend the day as pleasantly as he could with his friends. In the evening he appeared for Varian's saloon in Park row. He was pountiess, but this didn't prevent him calling for a drink. The drink was not given to him, and Tom stole a bottle of whiskey and disappeared. A little room on the third floor at 83 Park row is fitted up as a club room. It is frequented mostly by printers, and Brodie thought he had a right there. The police say Brodie had a number of tough young men with him, and that his object in entering the club room was to clean it out in order to satisfy an old gradge that he had against a arint r named Wm. Floyd, who fired a shot at his brother Bleve some months ago. A number of men sat around a red cloth covered table playing carde. The police say Brodie wanted to sell the stolen bottle of whiskey to Floyd, and when the latter refused to buy it he asked Floyd to loan him fifty cents. Floyd replied that he was always willing to loan a decent man money. Brodie, it is said, took offerce at this remark and made a dash at Floyd with a knife. Floyd pulled a r-volver from his pocket and fired a shot at Brodie. The men in the room cleared out, and an hour later Brodie waked into the Chambers Street Hospital. The revolver had evidently been held close to his face, for the skin was blackened with powder. The ball lodged in the masies of his neck, and inflicted a painful wound. Frank Noson, a printer, who saw the shooting, corroborates the story toid by the police. The door of the club room was fastened with a big padleck yeaterday. They were about half way across when they were seen and fired at. They The door of the cub room was installed with a big padicek yesterday.

Tom Brodie said that he was sitting quietly watching a game of poker, and that he was shot because he said that if Comstock learned that poker was played there he would "puil" the place.
Detectives Sheiney and Carr of the Oak street station are looking for Floyd.

#### ROSSA RETIRES AS BUGBEAR.

The British Nation May New Bevote its At-tention to Hamilton Williams, O'Donovan Rossa gave a Sun reporter to understand yesterday that there wouldn't be

any let up in relentless dynamite warfare on England because he had been retired as Executive of the dynamite branch of the Fenian Brotherhood. He said that he had resigned, and that he had resigned because Americans were down on any man holding office longer than three terms. He declared that he didn't know whether Dr. Hamilton Williams was his successor or not, but he did know that Dr. Wil-liams approved entirely of the Rosea dynamite methods. Then Mr. Rossa wrote this on a slip of white paper:

of white paper:

If Dr. Hamilton Williams is my successor in the
Brotherhood work I am as glad of it as is any frishman is America, tecause with Dr. Hamilton Williams I can work for Iroland's freedom, I believe there is work for Ireland in that gentleman. O'Dogovar Rossa. Rosen said that he was going to devote him-ell to making some money hersafter, and he wrote this on a slip of brown paper:

I did not consider it proper to remain in the conven-tion after my resignation and make myself acquainted this the programme of the Fenian work in the future.

with the programme of the Fenian work in the future. He added that he wasn't going to take an active part in Fenian management any more. A London correspondent tried to get something out of Rossa about the future dynamite policy to cable to the English papers, but Rossa wouldn't tak to him.

It has been the custom of the Fenian Brotherhood, after its annual conventions, to issue a proclamation to the public stating what the next year's policy would be. It was said yesterday that this proclamation will be issued in a few days, with Executive Williams's approval.

#### JENNIE HEIM'S DEATHL

Indications that She Committed Suicide by

Jennie Heim, 27 years old, lived with her mother, two younger sisters, and a little broth-er in Flat 16, on the top floor, at 235 East Houston street. She had been employed on lace work in a store, but had had no work recently because of dull times. On Thursday morning she arose early, made coffee, went to a drug store for cough drops for her little

a drug store for cough drops for her little brother, and without eating any breakfast returned to her bed. At neen her mother tried to rouse her, and found her, as she thought, in a fainting fit. She induced her to drink some water, and, seeing that she didnot revive, sent for Dr. Albin Fulda of 338 East Fourteenth street. Dr. Fulda sening that she didnot revive, sent for Dr. Albin Fulda of 338 East Fourteenth street. Dr. Fulda arrived about 1 P. M. Within an hour Jennis died.

Dr. Fulda reported to Coroner Levy yesterday that the girl had poisoned herself. Jennis's mother and sisters showed to Deputy Coroner Jenkins a handkerchief smelling strongly of carboile acid, which they had found hanging over the foot of Jennis's bed. Jennie, they said, used carboile acid two months ago to cure a felon on her linger. Dr. Jenkins could not detect any odor of carboile acid upon the dead girl's lips, but he was inclined to think that she killed herself with that poison. He will make an autopsy this morning. The young woman had been despondent for some time, and had complained of headaches.

Catarrh may affect any portion of the body where the nucous membrane is found. But catarrh of the head is y far the most common, and, strange to say, the most lable to be neglected. The wonderful success Hood's Sarsaparilla has had in curing catairh warrants us in orging all who suffer with this disease to try the peculiar medicine. It renovates and invigorates the blood, and ones every organ. "For several years I have been troubled with that

terribly disagresable disease, catarrh. I took Hood's Sarsapatilia with the very best results. It cured me of that continued dropping in my throat and stuffed up feeling. It has also helped my mother, who has taken it for run down state of health and kidney trouble. I recommend Hood's Sarsanarilla to all as a good medi-cine."—Mrs. S. D. HEATH. Putnam, Conn.
